Skills

Programming

- Java
- C#
- Python
- PowerShell

Tools

- Jenkins
- Maven/Gradle
- Azure DevOps
- Jira/Confluence

Technologies

- Containers
- Build Pipelines
- Virtual Machines
- Database Servers

Techniques

- Agile
- Scrum
- TDD
- OOP

Professional Experience

Computer Scientist – U. S. Department of the Air Force

Aug 2020 - Jul 2022

Java, C#, Python, PowerShell, Jenkins, Containers, GitLab, Azure DevOps, Jira

SECRET Security Clearance (April 2021) | Scrum Alliance Certified ScrumMaster (February 2022)

- Designed, planned, and conducted project analysis on an enterprise cloud application
 - Built a prototype with Python that accepts data via TCP sockets for middleware messaging
- Developed a containerized data translator Java cloud application
 - Configured a development environment and maintained an automated build pipeline
 - Developed business logic over an enterprise application template
 - Implemented the application's message passing and translation functionality
 - Created tools for sending generated mock data to the data translator for testing and validation
- Contributed to an in-house status-board web application
 - Completed backlog items on a DevOps team for a C# ASP.NET Razor Page app
- Composed a Java desktop application update installer
 - Formed PowerShell script to coordinate OS services/SQL Server databases with file installs
- Wrote OOP classes, methods, unit-tests, and reviewed code on multiple Agile Scrum teams

Education

Bachelor of Science in Computer Science

Aug 2018 - Aug 2020

University of Colorado Boulder – GPA: 3.50

Entrepreneurship

lukermcconnell.net – *HTML, CSS, Javascript*

- Designed and implemented a portfolio website hosted with AWS S3, Route 53, and CloudFront

Military Service

Nuclear Plant Operator – U. S. Navy, Yokosuka, Japan; Norfolk, VA

Dec 2010 - Dec 2016
